These districts are designed to preserve and protect the character of existing neighborhoods and subdivisions, and to prohibit any use which would compromise or alter existing conditions and uses. Also, these districts are intended to encourage residential in-filling and expansion of existing neighborhoods and subdivisions. Development standards and densities regulating development of the districts, and permitting land uses are designed to reflect existing conditions and enhance the prospects of "like development". ***Permitted uses (some of which may require site plan approval) within the RC-II zoning district include:*** churches; schools; cultivation of field crops, orchards and groves; non-commercial equestrian uses; family day care homes; outdoor recreational facilities within an approved residential development; and dwellings of no more than one per approved platted lot to include manufactured homes, modular homes, and single family detached homes.
