

Storage Buildings that are one hundred and twenty (120) square feet or less, or do not exceed five hundred dollars (\$500.00) including material and labor costs, per York County's Code of Ordinance, will not require a building permit. **However they do require a Zoning Compliance Permit**

Items Needed:

1. NPDES Questionnaire
2. You will need a copy of your survey
3. You will need a sketch of your building. This can be obtained from the manufacturer, or you may hand draw a simple sketch that will show the dimensions, how many stories there will be in the building as well as window and door sizes.

Any questions call (803) 909-7200 or 1-800-922-7271
