

YORK FORWARD

moving york county forward...together

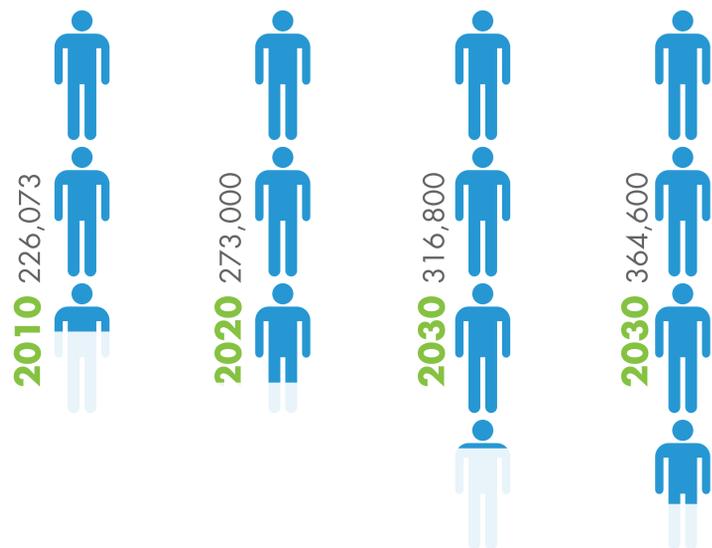

A PLAN FOR YORK'S FUTURE

York County enjoys the economic benefits of growth. Proximity to Charlotte, excellent schools and a high quality of life attract employers and residents alike. Growth continues to increase demand for services and infrastructure. Keeping pace with that demand is paramount to maintaining the quality of life for which the area is known.

The ideas and constructive dialogue that are generated through this process will result in a Comprehensive Land Use Plan that is strategic in nature and identifies key strategies to be implemented by the County and its partners in both the public and private sector. The Plan will also facilitate growth management initiatives that are critical to future economic stability.

GREAT PLANS transform communities into GREAT PLACES.

York County has a long-standing tradition of preparing plans to help guide growth and development decision in the community. The most recent Comprehensive Plan was adopted in 2004 and updated in 2009. Each of these efforts resulted in a set of recommendations that provide the County with a decision-making framework. The findings and recommendations of these plans will inform the development of the Comprehensive Land Use Plan.
