

YORK COUNTY & SCDHEC PERMANENT STORMWATER SYSTEM MAINTENANCE AND RESPONSIBILITY AGREEMENT

Under the South Carolina Stormwater Management and Sediment Reduction Act of 1991 (48-14-10, et. seq.), Regulation 72-308 requires the landowner, its successors and assigns, including any homeowners association, shall adequately maintain the stormwater management/Best Management Practices (BMP) facilities. This includes all pipes and channels built to convey stormwater to the facility, as well as all structures, improvements, and vegetation provided to control the quantity and quality of the stormwater. Adequate maintenance is herein defined as good working condition so that these facilities are performing their design functions.

York County/The Department of Health & Control (DHEC) recommends that the Landowner, its successors and assigns, shall inspect the stormwater management/BMP facility regularly. The purpose of the inspection is to assure safe and proper functioning of the facilities. The inspection shall cover the entire facilities, berms, outlet structure(s) pond area(s) access roads, etc.

The Landowner, its successors and assigns, hereby grant permission to York County/The Department of Health & Control (DHEC), its authorized agents and employees, to enter upon the Property and to inspect the stormwater management/BMP facilities whenever York County/DHEC deems necessary. The purpose of the inspection is to follow-up on reported deficiencies and/or to respond to citizen complaints. York County/DHEC shall provide the Landowner, its successors and assigns, copies of the inspection findings and a directive to commence with the repairs if necessary.

The landowner, its successors and assigns, will perform the work necessary to keep these facilities in good working order as appropriate. In the event a maintenance schedule for the stormwater management/BMP facilities (including sediment removal) is outlined on the approved plans, the schedule will be followed.

The agreement imposes no liability of any kind whatsoever on York County/DHEC and the landowner agrees to hold York County/DHEC harmless from any liability in the event the stormwater management/BMP facilities fail to operate properly.

I accept responsibility for ownership and proper maintenance of the stormwater system (pond, swales, etc.) on the site per the approved maintenance plan. I will complete any necessary repairs and/or preventative maintenance procedures in a timely manner to ensure proper functioning as a stormwater management device(s).

It is my understanding that the maintenance plan may be amended / revised at any time by York County/DHEC, and I will abide by any prescribed changes.

I will continue to own and maintain the pond until York County/DHEC is notified in writing of a transfer in ownership and maintenance responsibility. The notification will include a date for the transfer in ownership and maintenance responsibility.
